There are some very old woods, which are worshipped, as belonging to the Pandavas. It is a lake spread over an area of one and a half km.

The Trail covers Madhymaheshwar, Kachani Dhar, Kachani Tal, Pandav Sera, & Nandi Kund. Shiva is worshipped at Madmaheshwar in the form of navel - shaped lingum. Located at an altitude of 3,289 mts, the classic temple architecture belongs to the north - Indian style. The Pandav sera valley is 3-4 km. wide and local people believe that Pandavas stayed here for a long time, dig a canal and transformed it into a cultivable land.
